Declaration of Exemption **Potentially Explosive Atmospheres Directive 2014/34/EU**

In accordance with the provisions of Directive 2014/34/EU, Chapter 1, Article 1, the pressure reducing, back pressure regulators, diaphragm valves and filters listed below, having no potential source of ignition and no autonomous function within a safety system are exempt from the scope of the Directive and do not require ATEX certification.

The product families listed below are considered to be components of a safety system that in itself complies with the requirements of the Directive. Therefore, individual components that are necessary to operate the safety system but have no autonomous function to ensure the safety of the system and exhibit no potential source of ignition are exempt under the provisions of Article 1, subparagraph 2 of Directive 2014/34/EU. The applicable product families are:

PRESSURE REDUCING:

- PR-1, PR-2, PR-5, PR-7, PR-7LF, PR-7ULF, PR-9, PR-11, SPR, PR-50, PR-56, PR-57, PR-59, DL-50, DL-56, DL-57, DL-59, CPR-1, CPR-5, LG-1, MR
- **Cylinder Regulators:** CYL-1, CYL-2, CYL-20, CYL-21, CC-2, CYL-3, COM-1, COM-2B, COM-2P

NON-ELECTRICALLY HEATED VAPORIZING REGULATORS:

- HPR-2, HPR-2XW, HXR, CV, CV2, DH2, DHR, LNG, HBP

BACK PRESSURE:

- BP-3, BP-6, BP-8, BP-8LF, SBPR, BP-60, DL-60, BP-66, DL-66, CBP-3, LB-1

DIAPHRAGM VALVES:

- DV-1

FILTERS:

- F4, F6K, CYCLONE

If there are any questions regarding this Declaration of Exemption, please contact GO Regulator Customer Service.

Signed for and on behalf of:

Kent Jackson
Director of Engineering and Product Management
